Subject: Application for Frontend Developer Intern (Paid) — FourBtech

Dear Hiring Team at FourBtech,

I am excited to apply for the **Frontend Developer Intern (Paid)** position at FourBtech. With strong hands-on experience in **React.js**, **JavaScript**, and modern frontend development practices, I am eager to contribute to your team and continue growing my skills in a professional environment.

Recently, I worked on a large-scale project called **AAAOGO**, a multi-service platform that integrates **car recovery, shipping, movers, cab and bike services, tourism, and yacht booking**. The platform includes an **MLM (multi-level marketing) system**, with **real-time booking and sales distribution powered by Socket APIs**. This experience has strengthened my understanding of component-based UI design, API integration, and responsive web development.

I have a solid foundation in **HTML5, CSS3, and JavaScript**, along with proficiency in **React.js, Git/GitHub**, and building responsive, user-friendly interfaces. I'm passionate about learning new technologies, solving real-world problems, and collaborating in remote team environments — all of which align perfectly with FourBtech's vision.

I'm confident that my technical skills, attention to detail, and eagerness to learn would make me a valuable addition to your team. I would love the opportunity to take part in the evaluation process and discuss how I can contribute to FourBtech's projects.

Thank you for considering my application. I look forward to hearing from you soon.

Warm regards,

Ahad Qureshi
